Superintendent's Corner

Hi!

Well it is February and we still do not have any events on the club calendar. But on other calendars, there is "Rails in the Rockies" Feb. 13 & 14 in Estes Park; Sat. 9-5, Sun. 9-4, and "The Rocky Mountain Train Show" March 5 & 6 in the Denver Merchandise Mart, Sat.10-5, Sun. 10-4. Remember that we travel to Garden City for the Boot Hill Show March 19 & 20.

Please remember that if you want to save a month's dues have your dues in before March 1.

Well have a good month and see you at the club room.

Lester Coburn
Superintendent
Pikes Peak "N" Gineers

Coupler Clinic

The Coupler clinic will be at Mike's house where we have a little more room to work. Mike would like a head count for the clinic to make sure he has enough tables setup.

Those attending the clinic need to bring your tools, cars and coupler kits. Mike will have some extra lights if needed.

Mike plans on letting each of the participants install their own couplers and he will assist those who need the help. Should be fun with a left handed person who is used to working upside down and backwards teaching right handers how to do the same!!

Editors Notes

This Railhead is a little light on subject matter as I let February creep up on me. I do appreciate John sending me the only photo in this month's Railhead.

Just a note here, we might have a three day showing at Peterson Air Force Base instead of two. John stated last Friday at the club that the museum got permission to open on Sunday to show off the trains. John will probably go over the new details at the business meeting.

Ron is looking for cattle trucks for the "Cow Patty" module. He needs about three or four of the tractor trailer models for the display.

2016 Dues are Due

Those of regular membership status have till midnight February 29 to pay your yearly dues to receive the 1 month discount. Affiliate members may send their checks to "PPNG c/o Mike Peck, 4970 Iron Horse Trail, Colorado Springs, CO 80917

The club has a new member Grant Moser who joined the club at the January business meeting. When you see Grant say hi and introduce yourself.
